

2ND ASIA-PACIFIC CARDIO-ONCOLOGY SUMMIT

15TH & 16TH NOVEMBER 2025

GOLDEN TULIP, KOLKATA

INTERNATIONAL FACULTY &
MEMBER OF THE ADVISORY COMMITTEE

DR. AVIRUP GUHA

- Assistant Professor at Augusta University
- Leads the Cardio-Oncology program at the Medical College of Georgia.
- Board-certified in Cardiology, Cardio-Oncology, Echocardiography and several other cardiac imaging modalities.
- His ongoing research, supported by the American Heart Association and the Department of Defense, focuses on translational science investigating biological disparities between White and Black men with prostate cancer undergoing androgen deprivation therapy. A key area of study is the exploration of proteomic aging pathways and their influence on vascular aging, with additional emphasis on how social determinants of health modify these effects in this population.
- Trained epidemiologist from Emory University
- Serves as the Principal Investigator of the American Heart Association
- SFRN grant in Disparities in Cardio-Oncology, where he is the Population Science Principal
